## Summary

---

I'm a passionate software developer who began my journey with Python four years ago. Initially driven by curiosity to build GUI apps, I quickly evolved into a full-stack web developer, mastering technologies like ReactJS, NodeJS, ExpressJS, and MongoDB. Currently a third-year Computer Science student at PES University and working as a Software Developer Intern at Comono India, I thrive on creating meaningful and scalable solutions. My dedication to self-learning, hands-on projects, and real-world development sets me apart.

## Education

---

- |   |           |
|---|-----------|
| <b>PES University, Bengaluru</b> , B-TECH in Computer Science | 2023-2027 |
| • CGPA: 8.38  |           |
| <b>Bhagwan Mahavir International School</b> , 12th            | 2023      |
| • CGPA: 85.2  |           |

## Experience

---

- |   |                      |
|---|----------------------|
| <b>Software Developer Intern</b> , Comono India, Bengaluru  | April 2024 – Present |
| <ul style="list-style-type: none"><li>• Built the official company website from scratch using HTML, CSS, and JavaScript with a clean, responsive design. Visit <a href="#">Website</a></li><li>• Developed a full-fledged <b>Bid Comparator Tool</b>:<ul style="list-style-type: none"><li>– Developed the frontend using ReactJS.</li><li>– Built the backend with Flask.</li><li>– Used OpenAI API to generate detailed natural-language summaries.</li><li>– Users upload two ZIP files → system extracts and compares files with the same name, line by line.</li><li>– Generates per-file summary, overall comparison report, and UI for seamless viewing.</li></ul></li></ul> |                      |

- |  |                       |
|--|-----------------------|
| <b>Frontend Developer Intern</b> , Ovii  | March 2025 – May 2025 |
| <ul style="list-style-type: none"><li>• Developed key user-facing modules including a Resume Upload page, Quiz Taking interface, and Interview Simulation page using ReactJS.</li><li>• Designed intuitive UI/UX to ensure seamless interaction and flow for end-users across all platforms.</li><li>• Integrated frontend components with backend APIs to enable real-time data handling and dynamic content rendering.</li><li>• Actively contributed to planning and development meetings to align technical implementation with product goals.</li><li>• Ensured responsive design, accessibility, and consistent styling across all new features.</li></ul> |                       |

## Projects

---

- |   |                                |
|---|--------------------------------|
| <ul style="list-style-type: none"><li>• <b>Comono India Website</b><br/>Developed the official website of Comono India using HTML, CSS, and JavaScript.<ul style="list-style-type: none"><li>– Designed a clean, professional UI and ensured full responsiveness across all devices.</li><li>– Focused on accessibility, performance optimization, and user engagement.</li><li>– Represents the company's brand identity and serves as their digital presence.</li></ul></li></ul> | <a href="#">[View Project]</a> |
| <ul style="list-style-type: none"><li>• <b>Qizzler – Online Quiz Platform</b><br/>A MERN stack quiz-taking and creation platform for students and teachers.</li></ul>   | <a href="#">[View Project]</a> |

- Users can sign up, create quizzes, attempt them, and track scores in real time.
- Built using ReactJS, Node.js, Express, and MongoDB with JWT-based authentication.
- Designed for responsive, interactive experience with smooth UI.

- **SmartCV – Resume Builder Tool**

[\[View Project\]](#)

An end-to-end resume builder that dynamically generates resumes based on user input.

- Users enter personal, educational, and professional info to generate PDFs.
- Built with ReactJS; includes client-side validations and clean UI/UX.
- Allows users to download a polished resume with one click.

- **Live Cricket Score App**

[\[View Project\]](#)

A real-time web app showing ongoing cricket match data.

- Fetches live cricket data using external APIs with real-time updates.
- Developed using ReactJS; optimized for mobile and desktop views.
- Provides match details, scorecards, and upcoming fixtures.

## **Skills**

---

- **Frontend:** ReactJS, HTML5, CSS3, TailwindCSS, Bootstrap
- **Backend:** NodeJS, ExpressJS, Flask
- **Database:** MongoDB, PostgreSQL, SQL, Prisma
- **Dev Tools:** Git, GitHub
- **Languages:** JavaScript, TypeScript, C, Python
- **Other:** REST APIs, JWT Auth, OpenAI API, Responsive Design
